ArcelorMittal

Our digital solutions Get to know e-invoicing!

"Digital transformation is a key driver for ArcelorMittal Europe. The dematerialization of the invoicing process offers clear and tangible benefits, for both the sender and the receiver. We encourage our customers to make this digital journey together, towards a leaner and greener world".

Juan Marin
Head of ArcelorMittal Europe
Receivables Management

What is in it for you ?

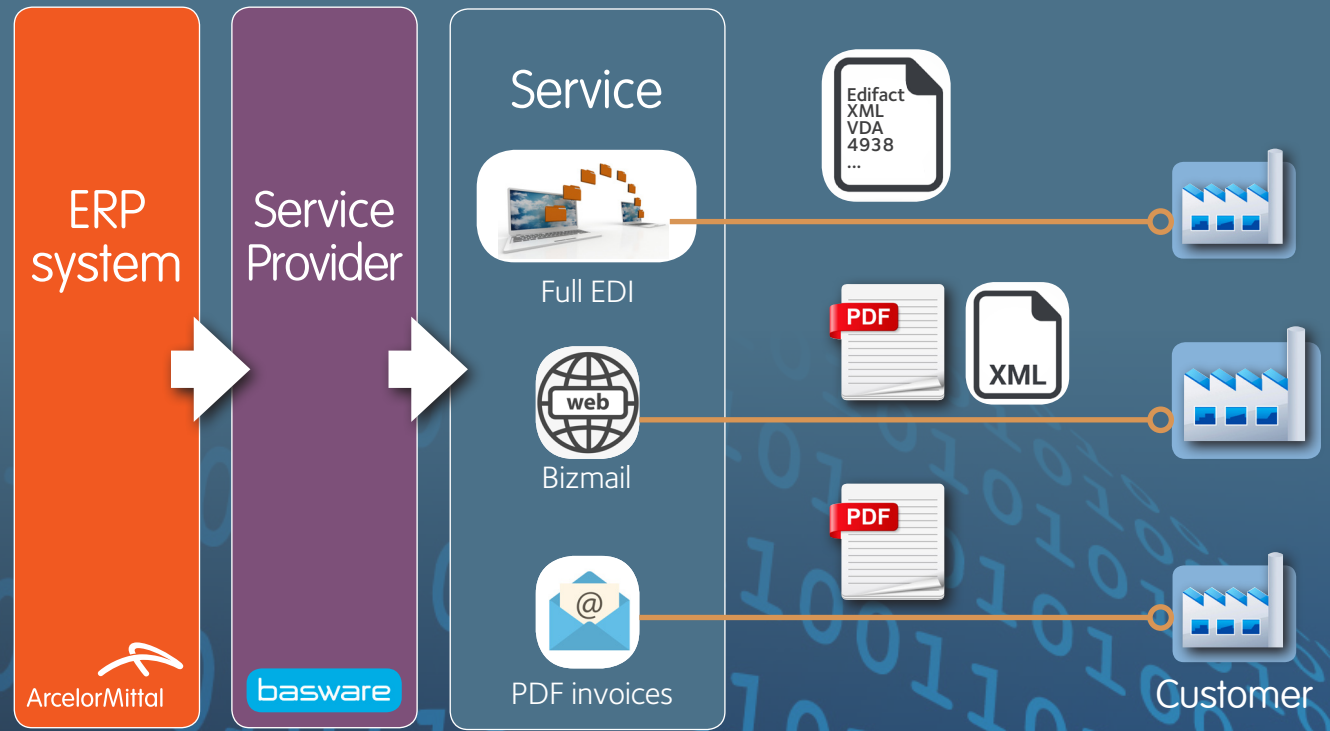

E-invoicing (or electronic invoicing) is the delivery of invoices and related documents by means of electronic communications.

- ✓ **Change to a completely automated process**
Our e-invoicing service offers you the opportunity to change to a completely automated process
- ✓ **Cut administrative costs by 90%**
E-invoicing can cut processing costs by up to 10€ per invoice
- ✓ **Less risk of errors**
Make the accounts receivable process free of manual interventions
- ✓ **Paperless process**
Reduce the carbon footprint by processing invoices electronically
- ✓ **ArcelorMittal offers the service for free**
Whatever the solution chosen, receiving an electronic invoice from ArcelorMittal is free for you

This service is part of our broader approach of digitalisation, including quality, order and shipment tracking and synchronization with Customer Service, and is the foundation for the next waves of optimization of our common supply chain.

You gain on efficiency and speed today, while preparing your future digitalisation. Why wait ?

Full EDI

Bizmail

PDF invoices

- Enables fully automated integration
 - Requires connection with third-party provider Basware
 - Mapping is done by Basware to your preferred format of invoice
 - E-invoicing agreement necessary
 - Recommended if you have a high volume of invoices
-
- You receive an email with a link to the invoice on the Basware portal
 - No contract needed, you accept online agreement
 - Invoices are available both in PDF and XML formats, allowing data integration
 - The Basware portal functions as legal archive
-
- You receive an email with the original PDF invoice attached, eliminating the need for a paper flow
 - Simplified e-invoicing agreement necessary
